

## Chamber-OS — UAT Overview & Final Sign-off

Read this first. It lists every test set and holds the final Go/No-Go sign-off. Start with the Tester Guide, then work through the sets in order.

User Acceptance Testing (UAT) is where the chamber's own staff confirm the system works correctly — by clicking through it themselves on a trial system — before it goes live. Each document set below is a checklist of test cases. Work through them one set at a time, tick Pass or Fail for each, and sign at the bottom of each set. When every set passes and the final sign-off below is complete, the administrator switches the system to live.

Start with the **Tester Guide** (document "00"), then work through the sets in order. Ask the administrator for the trial-system link and the test accounts (admin / manager / member) before you begin.

### Document sets

| Set    | Document                                   | Test cases |
|--------|--------------------------------------------|------------|
| Guide  | 00 - How to Run the UAT (Tester Guide)     | —          |
| F1     | Sign-in & User Roles                       | 28         |
| F2     | Membership Plans                           | 26         |
| F3     | Members & Contacts                         | 36         |
| F4     | Tax Invoice / Receipt / Credit Note / Void | 15         |
| F5     | Online Payment (Card / PromptPay)          | 22         |
| F6     | Event Attendee Import                      | 30         |
| F7     | Group Email / E-Blast                      | 25         |
| F8     | Renewals & Reminders                       | 38         |
| F9     | Dashboard, Audit & Export                  | 36         |
| Member | Member Portal Quick-Start                  | 28         |

Total: **284 test cases** across 10 sets. You do not need to do them all at once — sign off set by set.

### Final sign-off (Go / No-Go)

Complete this only after every set above has passed and been signed.

| Role                               | Name                                     | All sets passed? | Date | Signature |
|------------------------------------|------------------------------------------|------------------|------|-----------|
| UAT approver — authority (SweCham) | _[General Manager / Executive Director]_ |                  |      |           |
| Hands-on tester                    | _[Office / Membership Manager]_          |                  |      |           |
| F4 tax-document co-signer          | _[Accountant / Bookkeeper]_              |                  |      |           |
| System administrator               | _[ ]_                                    |                  |      |           |

If you find a problem in any set, note the symptom and the failing test-case number, then report it to the system administrator. Do not sign off that set until it is fixed.
